

DATA SHEET

SUPER PAINT STRIPPER

Colortone Super Paint Stripper is an easy to use brush on scrape off gel covering approximately six square meters per litre.

Colortone Super Paint Stripper can be applied on wood, metal and stone surfaces coated with acrylics, oils, varnishes and laquers.

Application

Apply Colortone Super Paint Stripper by brush and allow surface to bubble for approximately 5-10 minutes. Scrape off the bubbled surface with a paint scraper or stripping knife. Wash all surfaces well with water after scraping. Surfaces should be dry before application of a further coating. Brushes should be cleaned with water.

Caution

Do not apply Colortone Super Paint Stripper on plastic or fibreglass surfaces. Do not apply in hot conditions. Ensure plenty of ventilation if applied indoors. Keep out of reach of children. Use rubber gloves for safety. If skin contact is made wash with water. Keep container sealed when not in use.
